Beauftragter für Ausbildung und  
Studienangelegenheiten  
4400 Münster den  
Hufferstraße 75  
Nebengebäude  
Germany

Dear Professor Habeck

It will be a great pleasure to serve on the board of the Journal which you are starting in Germany. I regard it as an honour to be a member of the board of Medizinische Ausbildung.

I will prepare an address about the commencement of your Journal and the work of your Association, which I will post to you very shortly.

The start of your Journal is a great event, which colleagues all over Europe will want to recognise. I hope it will encourage medical teachers in other countries to start Journals also.

You may wish to keep in mind that we will readily publish for you, in Medical Education, a summary of each of your issues.

Yours sincerely

H J Walton  
President
